About Us

Quattro Company Limited is Zambia's highest rated Personnel Transport service provider to the mining industry.

With over 27 years of experience, Quattro continuously exceeds mining contractor KPI's which is indicative of a world class service. Current running contracts with major mining companies in Zambia means that we are transporting over 11,000 employees a day. Quattro has a highly trained workforce of over 1,000 people with branches in 7 major towns throughout the Copperbelt and Northwestern Province.

Quattro Company Limited was founded in 1991 by current directors; Graham Wright, Dimitri Klironomos and George Klironomos.

OUR VALUES

Quality, Passion, Commitment: The foundation of what makes Quattro stand out is our belief that these values make our Company great, the strength of all our people working together for a common goal

1

Quality People

With every succesful company there are great people who provide the base on which we stand.

2

Passion

For Quattro its not enough to just love what we do; we strive to make it the best it can be.

3

Commitment

Our obligations and commitments are paramount, Quattro aims to provide more than just a service; we provide peace of mind.

HISTORY

The Story So Far

Quattro's humble beginnings as importers of quality spares and hardware evolved to include motor vehicles and transport services over two decades. Expertise in procurement, local and international transport logistics, vehicle and transport support lay the foundation to what would be Quattro's core business: Personnel Transport.

What started with one vehicle, passion, commitment and hard work, eventually yielded an Internationally respected service provider.

1991

Quattro Company Ltd Incorporated

The primary order of business was to take advantage of our experience and expertise in procurement, transportation, clearing and wholesaling of a wide variety of goods to retailers on the Copperbelt and Lusaka.

1998

Our First Bus

Quattro had a small stock of Hiace mini buses and where approached to subcontract on partial personnel transport contract at Chambeshi Metals. As time went by, Quattro was allocated more and more routes, purchasing bigger and newer buses.

2001

Our First Contract

Quattro assumed the complete running of the Personnel Transport contract for Chambeshi Metals Plc as a sub-contractor to Truckmec Ltd, which still continues to date. Quattro serviced a Personnel Transport Contract with Mopani Mines in Kitwe

27 Great Years. & Counting

2005

Kansanshi & Lumwana Mine

Contracts entered into with Kansanshi Mine PLC / First Quantum Mining Zambia in Solwezi and in 2006 Equinox / Barrick Mining in Lumwana; these Personnel Transport Contracts continue to date.

2011

African Explosives

2011 Quattro was contracted to transport Materials for AEL across the country and to the Democratic Republic of Congo; these Personnel Transport Contracts continue to date.

2012

Kalumbila Mine

Kalumbila Minerals Ltd being a subsidiary of FQMZ also signed Quattro on to service their Personnel Transport requirements; these Personnel Transport Contracts continue to date

2017

Konkola Copper Mines

Accepted Contract for bussing with Konkola Copper Mines (KCM) in Chingola

WHY US?

What we do

Safety

With extensive contract experience, we present our own safety induction program for new employees, underlining safety procedures and conduct enforced when working with all of our mine contractors. We have a team of qualified Safety Officers ensuring that Quattro strictly adheres to all Mine safety regulations as per contract conditions.

Fleet Allocation and Back Up

Buses allocated under contract scope of work are dedicated only for that specific contract. Our commitment is exclusive. Any business envisages the perfect relationship with their service providers to be problem-free, leaving them time to concentrate on their core business increasing efficiency and profitability. We know that we can provide this peace of mind; the ratio of our standby buses is high compared to our competitors.

Strict Safety Procedures

Peace of Mind

Spares on Hand

Backups

Upgrading and Fleet Replacement

Quattro Co. has also prided itself on the record it has set in terms of the upgrading of vehicles; we have always had an active policy of weeding out older buses/cars and replacing them with New and Good Second-Hand models. This not only increases our efficiency and cuts down on running cost/down time; this has had a very positive effect on the personnel that we carry.

Spares & Repairs

In order to ensure the hands-on running of each contract every branch has a fully equipped workshop and store room to ensure high maintenance and consistent standards.

Driver Training

In servicing all our Personnel Transport obligations since the beginning of 2000 we have head-hunted experts in all domains of our work. In 2011 we introduced a Quattro Driver Training Academy that is headed by our Driver Trainer Mr Daniel Vorster. In turn Mr Vorster has trained a team of qualified instructors who assess, induct and teach newly employed drivers as well routinely retest old drivers in refresher courses. They are trained in passenger transportation, defensive driving, accident prevention and accident response.

Corporate Social Responsibility

Quattro has a history of regular support for the Blind, Handicapped, Widows, Orphans and Albino organisations. We have been regular sport benefactors to local football, equestrian, fishing and golf clubs and tournaments.

OUR PEOPLE

Quality people

Professionals from across the company talk about what they do, what it's like to work at Quattro, and more.

"I joined the company in the early 90's and since then has beyond unproven doubt become my second family, taking care of all my basic and family needs hence my uttermost gratitude to all the management and workforce. I am proud to be part of this harmonised entity"

- Peter Mubambe
Workshop Supervisor

"The best thing about this company is its overall reputation, thats what drew me in. Quattro has always been the industry leader in innovation and community friendly standards. My job is to buy, install and maintain all the tyres for each branch, through this I have seen the importance Quattro puts on quality and high standards"

- Balaji Durai
Tyre Technician

"I have been with Quattro Company for 4 years now and I engage with employees **everyday**. I am happy to say that this company has been so good in the way it cares for its employees as compared to other companies, I and my family are so grateful that I work for this company"

- **Leonard Simasiku**
HR Manager

"I have been working in accounts for more than 11 years. The atmosphere and professionalism at Quattro makes me to look forward to being in a place that continually demands **excellence** while still allowing a healthy and positive work environment. We have remarkable people in our company who want to be part of the journey and who are committed to making our next steps a **success**. I attribute my success to my willingness to learn which is replicated throughout the company. I love my job!"

- **Selina Kalero Kayi**
Accounts Assistant

"I have been a driver at Quattro for 24 years. I have learned many things and have watched this company **grow**. we are continually being motivated to drive carefully and safely"

- **Mafinda Kalipeni**
Driver
